Fund Choices

The cover story on *Choose Right to Ride the MF Growth Wave* in the *Outlook Money* June 2025 issue is very helpful for anyone looking to invest in mutual funds. It clearly explains the difference between direct and regular plans, and shows how choosing the right fund can make a big difference. The charts and expert tips make it easy to understand. It's a great read for both new and experienced investors.

Beyond Returns

The article *Returns Matter, But Does Your Fund Manage the Downside?* in the June 2025 issue made me realise that it's not just about how much a fund earns, but how it performs

during market uncertainty and fall. The article explained the idea in a very simple and easy to understand manner and changed how I look at mutual fund investments.

Gold Matters

I really enjoyed reading *Gold Is More Than Just A Metal* in your magazine's June 2025 issue. It made me think differently about gold, not just as a shiny ornament, but as a smart financial choice. The examples and clear points made it relatable and informative for readers like me.

Cash Flow

The article *How SWPs Help Manage Cash Flow in Retirement* from the June 2025 issue felt particularly relevant to me as someone

helping my parents through their retirement. It explained systematic withdrawal plans in a simple way and I appreciated how it focused on steady cash flow, something we often overlook when planning long-term. It could have touched a bit more on the risks, but overall, it gave me clarity on a concept I had not considered before.

DigiLocker Linking

I have retired after 30 years of service and relocated to my hometown. I have just started investing and recently opened a demat account. I was going through various tutorials on how to link demat account to DigiLocker, but most of them confused me. However, the explainer on *How To Link Demat, Mutual Fund Accounts To DigiLocker* from the June 2025 issue of *Outlook Money*, has been nothing but helpful to clear my doubts. Very nicely explained and the instructions were easy to follow.
