IS THE ECONOMY REALLY 'DEAD'?

www.frontline.thehindu.com

COVER STORY

Gross Domestic Propaganda

10/ While the government- and media-driven narrative, centred on headline GDP figures and buoyant stock markets, paints the picture of an India on the cusp of superpower status, the reality is a fragile and uncompetitive economy that is driving both foreign and domestic investment abroad. Unless India urgently addresses its deep-rooted structural deficiencies, real and sustainable growth will remain elusive.
