MARVELS OF THE OCEAN

Imagine swimming through crystal-clear waters, surrounded by playful, intelligent creatures that seem to understand you. That's life with the dolphins! These amazing animals aren't just adorable - they're incredibly brainy too.

Dolphins travel in close-knit pods, communicate with whistles and clicks, and work together to hunt, like the dusky dolphins in Argentina who herd anchovies into tight balls for an effortless feast.

In India, dolphins are just as fascinating. The Ganges River Dolphin, a rare freshwater species, is the National Aquatic Animal of India, while along the coasts of Kerala and the Andaman Islands, we can find the Indo-Pacific Bottlenose Dolphins.

Discover the world of dolphins in this issue of *Tell Me Why*.
