THE ENCHANTING WORLD OF BIRDS

Imagine a world without birds—no morning songs, no flashes of colour in the air, no graceful flights across the sky. Birds bring life, music, and wonder to our planet. From the tiny hummingbird hovering midair to the mighty eagle soaring high, each bird is a masterpiece of nature.

Some birds, like parrots, can mimic human speech, while others, like Arctic terns, travel thousands of miles across the globe. Owls hunt in silence, while flamingos wade elegantly in water. Every species has a unique role in the ecosystem—spreading seeds, controlling pests, and pollinating plants.

This issue of *Tell Me Why* takes you to the enchanting world of birds.
