|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| Optimization of Chayote–Mandarin Blended Beverage<br>Prashant Pandharinath Said & Sujata Jena                                                                                                                                                     | 1139-1146 |
| Application of <i>Bacillus</i> sp. and its Keratinolytic Enzyme to Recover Plastic and Silver from Waste X-Ray Films<br>Pooja Dabas & Neelam Garg                                                                                                 | 1147-1155 |
| Isolation of Thermotolerant Inulinase producing Bacteria from Compost using Enrichment and Baiting Techniques<br>Suman Prasad, Lakshmi J, Ramesh K V & Salamun D E                                                                                | 1156-1167 |
| Determining Optimal Road Widths in Zoning Plans using the LSM: Evidence from Elazığ, Türkiye<br>Selim Taşkaya & Jiajun Xu                                                                                                                         | 1168-1178 |
| An Efficient Machine Learning Technique to Predict Chronic Kidney Disease (CKD)<br>Monisha Dey & A H M Kamal                                                                                                                                      | 1179-1191 |
| An Analysis of Academic Behavior Analytics in Blended Mode of Teaching and Learning<br>Omkar Agrahari & Vinay Kumar Pathak                                                                                                                        | 1192-1204 |
| Identifying Rice Transplantation Dates using Sentinel-1 Synthetic Aperture Radar data and Machine Learning<br>Sudheer Kumar Tiwari, V K Srivastava, Sonam Agrawal & Raghvendra Singh                                                              | 1205-1215 |
| Bioinspired Trust Score Weight Optimization for an Improved Zero Trust Architecture<br>Ashutosh Soni, Surendra Kumar Nanda & Ganapati Panda                                                                                                       | 1216-1229 |
| Experimental Investigations of Model-Free Control Approaches on Control of Shape Memory Alloy (SMA) Spring Actuated Parallel Manipulator<br>Ranjith Pillai R & Murali Ganesan                                                                     | 1230-1240 |
| Turbulence Modelling and Flow Analysis of a Trapped Vortex Combustor<br>Dinesh Keloth kaithari, Gulab Dattrao Siraskar, Ramdas Biradar, Sachin Kandharkar, Ganesh E Kondhalkar, Prabhakar N Kota, Anant Sidhappa Kurhade & Shital Yashwant Waware | 1241-1253 |
| AI and IoT for Yarn Defect Detection in the Textile Industry: A Systematic Literature Review<br>Deni Kurnia, Agus Sutanto & Hanif Fakhurroja                                                                                                      | 1254-1264 |
