**VOLUME 32**

**NUMBER 3**

**JUNE 2025**

CODEN : IEMSEW 32(3) 293-410

ISSN : 0971-4588 (Print); 0975-1017 (Online)

## CONTENTS

### *Review Article*

- Critical review of codal provisions on the torsional irregularity 299  
Jawahar Prakashvel, Chockkalingam Umarani & Kannaiyan Sathish Kumar

### *Research Articles*

- Investigation of an electroplated Ni<sub>x</sub>Fe<sub>y</sub> Film for magnetometer applications 307  
Aditi, Supriyo Das & Ram Gopal
- Development of porous composite matrix using fly ash, waste tyre rubber, and rice husk ash for sustainable engineering applications 313  
Abhishek Bisarya, Krishna kumar Bhaskaran & Ritesh Vijay
- Non-destructive assessment of heat-damaged concrete 323  
Aparna Chaturvedi, Mahesh Gaikwad, Nawal Kishor Banjara & Suvir Singh
- Performance evaluation of different shape and orientation of digging blades in soil bin 331  
Narender, Atul Kumar Shrivastava, Ajay Kumar Roul & Parmod Sharma
- Significance of ductility on aseismic design of flexural members for normal to high strength concrete 342  
Bibhas Mandal & Santanu Bhanja
- Developing an integrated clustering algorithm based on fuzzy C-means for characterizing sound signals of vibration test rig 364  
Teuku Edisah Putra, Hizir Sofyan, Arif Saputra, Dien Lessy, Husaini & Teuku Ariessa Sukhairi
- Formulation and analysis of novel hybrid material for shock wave endurance with integrated image processing techniques 379  
Pradeep Kumar Sulur Loganathan & Maniraj Jaganathan
- Preparation and characterization of hydroxyapatite reinforced polymeric scaffolds 394  
Duygu Doga Fırat, Su Turku Ersoz, Fatma Burcu Alp, Ali Emrah Çetin & Muhsin Ciftcioglu
