VOLUME 32

NUMBER 6

DECEMBER 2025

CODEN : IEMSEW 32(6) 663-842

ISSN : 0971-4588 (Print); 0975-1017 (Online)

CONTENTS

Review Article

- Metamaterial absorbers: Comparative analysis of fabrication techniques and emerging trends 669
Sahil Thakur, Balamati Choudhury & Sachin Tyagi

Research Articles

- Design, simulation, and experimental validation of a corrugated morphing airfoil actuated by SMA-Spring mechanism 684
Kartikeya Parmar, Palani Anand Iyamperumal & Santhanam Ranganathan
- Experimental study for performance evaluation of in-filled materials in trench wave barriers for vibration screening 694
Kumar Shashi Bhushan, Anil Kumar Sahu & Rajeev Goel
- Design and analysis of PV fed single-stage AC-DC bi-fold converter for onboard charging applications 712
Bhavya Bansal, Dheeraj Joshi & Vishal Verma
- Identification of foot typology from gait analysis using machine learning approaches 727
Saraswathy Gnanasundaram, Nithya Rajagopalan, Jeni Christina George, Akileshwar Ganeshan & Krishnapriya Sundararaman
- Characterization of geopolymer concrete with fly ash, micro silica fumes, and waste rubber aggregates 735
Manoj Kumar Poonia & Amardeep Boora
- Investigation of hydraulic jumps on rough beds with adverse slope: A roughness froude number approach 749
Maisnam Bipinchandra Singh, Ngangbam Romeji & Thiyam Tamphasana Devi
- Characterization and performance evaluation of wheat husk ash for sustainable and durable concrete production 755
Aditi Patidar & Janardan Singh Chauhan
- Molecular SETs with enhanced electrostatic control: A tri-gated architecture using vanadium tris(dithiolene) as a quantum island 765
Anu, Priti Goyal, Manisha Verma, Mohd. Shahid Khan, Anurag Srivastava, Sunita Hooda & Sanjeeta Rani
- Development of a suction mechanism with a suitable end-effector for robotic cotton picking 773
Rahul Yadav, Manjeet Singh, Aseem Verma, Naresh Kumar Chhuneja & Tarandeep Singh
- Correlation between strength and ductility design of slender rectangular shear walls following the fundamental principles of limit state method 779
Jayanta Nath Chowdhury & Santanu Bhanja
- Optimized meta-heuristic VCO-based ADC design and analysis 798
Sriram Sundar S & G. Mahendran
- Enhancing CFRP machining performance: A hybrid fuzzy AHP-Grey relational analysis for parameter optimization 808
Amit Patil, Kiran Bhole, Deepak Singh, Sushil Ingle & Rohit Patel
- Synergistic effects of recycled rubber and polypropylene fibers in mortars: Experimental characterization and nonlinear predictive modeling 824
Mohamed Bachar & Djillali Chachi
