Why Saisha Is Becoming A Go-To Brand For Modern Indian Occasionwear

**P32**

*For years, the plus-size nightwear market has been restricted by limited silhouettes, repetitive designs, awkward proportions, and a lack of attention to everyday wearability*

## P18

*For value retailers, the competitive advantage now lies in how quickly they can roll out stores, standardise operations, and manage costs efficiently at scale*

## P48

*Trims can no longer rely on being cheap or interchangeable. They are now expected to improve performance, support compliance, and help speed up production*

## P58

*As we step into 2026, sustainability has shifted from a choice to an order. Regulations are the stick. Compliance is no longer optional. Buyers are auditing harder and contracts are getting stricter*
