CONTENTS

Challenges in production and placement of alkali activated concrete for *in-situ* applications 9
Amit Trivedi, Rajeev Goel, Rakesh Kumar, Arup Ghatak, Brijesh Singh & Rohit Kumar

Experimental study on comparison of equivalent concrete compressive strength of cores and rebound hammer tests with in-place and standard cubes 20
Nibir Pran Borah, Leon Raj Jesu Arul Raj, Siva Chidambaram Rajendran, Sanjay Deori, Dipak Basumatari, Rajib Das & Chockalingam Tamilarasu

Enhanced MPPT for PV systems using a two-stage hybrid fuzzy logic and P&O algorithm 36
Rajesh Kumar, Ananyo Bhattacharya & Aanchal Singh S Vardhan

Developing fired bricks from drinking water sludge and fly ash using cow dung and rice husk biomass wastes as internal fuel 51
Leena Vachasiddha, Shalini A Tandon & Rakesh Kumar

Design and optimization of high-performance organic solar cells based on DPPEZnP-TBO active layer 60
Sanjay Narayan Barman & Pinaki Laha

Advancing sustainability with the integration of PV-wind system for electric vehicle charging with optimized MPPT hybrid DC-DC converter 68
Tharwin Kumar Ravi Kumar & Christober Asir Rajan Charles Gnanakkan

Structural properties and porous nature of newly developed NEG materials 87
Surendra Kanikella, Kannipamula Vijaya Babu, Ampolu Satheesh, Elayaperumal Sumitha & Angagalakuduru Durga Prasada Rao

Pressure dependent thermoelectric properties of B1 and B2 phases of BaS 93
Kiran Dhill, Saloni Sharma, Ghanshyam Sharma & Kunj Bihari Joshi

Design and performance analysis of novel coaxial magnetic gear using subdomain method 100
Amberbir Wondimua, Yang Chaojuna, Wang Ao, Sun Haobo & Gao Yuan

Evaluating the effects of carbon black from recycled tires on subgrade stabilization, pavement design, and construction-phase CO_2 emissions 111
Tacettin Geçkil & Bahadır Karabaş

Use of a landslide problem for the identification parameters in geotechnics 126
Moufida Moussaoui, Souhila Rehab Bekkouche, Fadila Benayoun ,Ghania Boukhatem & Marwa Feligha
